I would not be where I am now if I did not attend Edmonds College. The high school completion program allowed me to earn high school and college credit at the same time and to graduate early. I think the open-mindedness, inclusivity, and diversity I experienced there pushed me to be even more open to new ideas, new people, and new communities. This has helped me adjust well to any new situations throughout my education and my career.

UC Los Angeles, Financial Actuarial Economics**

I always visited the Office of International Programs regarding transferring to a four-year university. Edmonds College frequently holds University Transfer Fairs, so it was very easy for me to get information. My international student advisor really helped me during my transfer preparation as she is always available to answer my questions. My advisor also helped me with filling out applications and personal statements.

University of Illinois, Urbana-Champaign - Actuarial Science

My studies at Edmonds College were a good foundation for what I'm studying now at University. Most of the teachers were super helpful, and I got the opportunity to be more active because of the smaller class size.

Jason Setiadi - University of Minnesota, Twin Cities
Statistical Science and Computer Science

Attending Edmonds College has helped me reduce overall tuition cost as well as helped me get a better chance to transfer to desired universities.

Olivia Widjaja
University of Massachusetts, Lowell - Plastics Engineering

I am very grateful for the advisors who have given me great help and support in planning my program pathway during my study at Edmonds College. Due to their guidance, I have successfully transferred to University of Massachusetts, Lowell and received an International Scholarship.
