

[Transfer to Central Washington University on Edmonds CC campus](#)

Cyril Florent-Paris, France

I transferred to CWU for Summer quarter 2002. The transfer of classes was a simple task, thanks to the close relationship of the two institutions. The Direct Transfer Agreement allows students to transfer easily, without having to fill out tons of paper works.

What are some advantages of transferring to CWU Lynnwood?

CWU Lynnwood offers great advantages for former Edmonds CC students; they can study for their Associate degree and Bachelor degree on the same campus. In addition, CWU students have access to all campus facilities such as the library, bookstore, computer labs, free bus pass, cafeteria, daycare, etc.

How do you like the classes at CWU Lynnwood?

I would recommend to international students of Edmonds CC to transfer to CWU Lynnwood. There are lots of classes available at CWU, giving students a wide range of choice in their major. Classes are offered at different times and each classroom has the latest equipment such as computer station with DVD, projectors and speakers.
