

**“At Edmonds CC I’ve had the chance to work on campus and I got to meet new people with varying faiths and points of view”**

**Yousef, Abotten (Joe), JORDAN**

I found Edmond Community College through the internet and through an agency in my home country. When I heard about Edmonds CC, I was surprised with the variety of classes offered at the college. Edmonds Community College offers reasonable tuition rates compared to four-year universities. At Edmonds CC students have the chance to finish the first two years of their college education; with small classes and instructors that have experience within their fields of study.

When I began taking classes at Edmonds Community College I had a passing TOEFL score and was granted placement into college level classes. At

the beginning of school I made many friends from all around the world - I learned about many other cultures.

From my first day at Edmonds CC, I was impressed by the size of the campus. I also like how well the classes are equipped; the mediated classrooms meet the needs of the students and the faculty. Moreover, International Student Services is my favorite place on campus. The staff are helpful, friendly, and happy to answer your questions at anytime.

EAP classes at the college gave me the chance to advance my English skills; I was very prepared for my college level classes. I plan to earn an Associate of Science degree in Civil Engineering and transfer to the University of Washington. I want to work with a large construction company in my home country.
