

“We have small classes, so students can get more direct help from teachers”

Lin, Sitong (Rosey), CHINA

My name is LIN Sitong (Rosey); I am from China Shenzhen. I finished my second year of high school in China before coming to Edmonds Community College, to continue my education in the United States. It saved me a lot of time; Edmonds CC offers me the opportunity to earn my high school diploma and to earn college credits at the same time. I can then transfer these credits to a four-year university.

I really like this school. First of all, the teachers are very good; they are very patient and treat all students equally. We have small classes, so students can get more direct help from teachers.

Edmonds Community College is located in a good neighborhood. It's not crowded and busy like downtown Seattle, but still offers a lot of fun events and activities.

I plan to transfer to the University of Minnesota-Twin Cities after I finish my classes at Edmonds Community College. I'm not quite sure about my major yet; it could be Finance or Psychology. That's another advantage to studying at Edmonds Community College. I have enough time to think about my major and my future-I want to be sure about my choices.

In my opinion, study at Edmonds Community College is a wonderful experience, a good decision for my life.
